CHARLES KLEHM and SON NURSERY

COMPLETE LANDSCAPING SERVICE

ALGONQUIN & ARLINGTON HEIGHTS RDS.
ARLINGTON HEIGHTS, ILL.
CLearbrook 3-2880

SEE WHAT YOU ARE BUYING.

We are here to serve you. During the week you will find Don Stibbe, Tell Bauer, Dave Stibbe and Carl Klehm at our Nursery to help you select the proper plant material to fill your landscaping needs. Ask them for ideas in using plants to the best advantage around your home. If you can, bring snapshots and dimensions.

EVERGREENS

We are especially proud of our evergreens and believe these to be the best. Ask us for the most suitable evergreen for your particular spot.

TREES AND SHRUBS

There are literally hundreds of flowering trees and shrubs adaptable to local climatic and soil conditions. Many of these bloom at other than springtime and, if properly selected, they will afford a succession of blooms for many months.

With proper plant selection, you can achieve the same degree of decorative harmony with trees, flowering shrubs and evergreens that you have in the inside of the house with carefully chosen paint, wallpapers and floor coverings.

ROSES

You can plant packaged roses very early in the season. After the 20th of April, you may select from the thousands of roses that we have potted and growing.

GRASS SEED

We are proud of our own mixture of grass seed. We are dealers in Scott's and Vaughan's seeds. Besides this, we have the following seeds in bulk: Merion and Kentucky Blue, Perennial Rye, Red Top, Creeping and Chewing Fescues, and Bentgrass. We will recommend the right seed for your conditions. We loan out equipment.

PERENNIALS

There is no group of plants that will create as much interest in your garden as a variety of hardy perennials. As these come into bloom we display them in our sales yard in pots ready to be planted in your yard for immediate effect. These include: bleeding hearts, painted and shasta daisies, columbine, violas, hemerocallis, artemesia, hibiscus, dianthus, carnations, lythrum, monarda, delphinium, sedum, veronica, funkia, gallardia, etc.

PEONIES

Acres of Flowers in Bloom—We invite you to visit our blooming fields of peonies in June. Peonies are planted in the fall, but if possible, select your varieties when they are in bloom. Peonies have been our specialty since 1902.

PHLOX

In July and August our salesyard is gayly in bloom with potted and ready to plant Phlox. These are the best varieties available. In the spring, all colors of creeping phlox are available. We have a few new varieties that bloom in the fall and in the spring.

HARDY MUMS

The showy fall perennial—from our acres of mums, we pot and have for sale hundreds of flowering mums. Select the varieties in bloom in order to get exactly what you desire.

IRIS

In late May we have many of the outstanding varieties of Iris, in bloom, and potted. These are not just one rhizome, but are an established 1 year plant that has been growing in the pot since August, 1956. Also see us for dwarf Iris in late April while they are in bloom.

ANNUALS

Plant our annuals to add sparkle, glamour and color to your home. To obtain the newest and most popular varieties, we recommend the Sweet Sixteen selections which we will have on display during May and June. We have quality and quantity in our annuals.

BULBS

Our bulb room is well known for its wide selection and quality. Pick out your own bulbs from open bins that show the picture of variety. In the spring, we feature gladiolus, lilies, tuberous begonias, gloxinias, and caladiums. In the fall, we have large displays of tulips, daffodils, hyacinths, crocus, squills, lilies, amaryllis, colchicum, etc. During the winter, we have prepared amaryllis, hyacinths, and paper whites.

GARDEN SUPPLY DEPARTMENT

We have the latest in fertilizers, insecticides, fungicides, weed killers, spreaders, and seeders, root feeders, garden hose and sprinklers, garden tools, etc. See our garden supply room.

GREENHOUSE

This past year we have added a greenhouse to better facilitate the sale of our annuals. In here we will feature geraniums and other annuals that will do well in the shade, such as tuberous begonias, impatiens, etc. During the month of December, you will find our greenhouse well stocked with poinsettias, wreaths and flocked Christmas trees.

CUT FLOWERS

We have fresh cut flowers from May until the end of September, including: French Hybrid Lilacs, Peonies, Delphinium and Gladiolus.

MELONS

Have you ever tasted our home grown melons? Try them in August and September—they are so delicious.

Specimen Evergreens

For Permanency, Year-round Interest and Beauty

(Extra select specimens slightly higher).
We also carry a good selection of small evergreens, potted, ranging in price from \$1.00 to \$2.75.

Peonies

OUR SPECIALTY SINCE 1902

Come in and browse through our show fields, where plants are labeled, from which you can make your selection.

WHY WE SHOULD GROW PEONIES

Here are some good reasons: They are rated among the most beautiful of all plants, both in plant and flower. They are easy to grow. Magnificent flowers may be produced with less care than that given almost any other flower. It is long-lived. An established plant will live and bloom for many years. There are thousands growing and blooming today that were planted fifty or more years ago. When you plant a peony, you plant it to last a lifetime. They may be grown in beds, borders or gardens by themselves or with other plants. They make attractive specimen plants on the lawn or in the garden. The blooms are large showy, of many forms and colors and long lasting. Many varieties are delightfully fragrant. Disease and insects rarely bother them. They make excellent cut flowers and give beautiful landscape effects. In short it is one of the most useful, beautiful, versatile, and altogether satisfactory plants known. It is truly the King of Perennials.

We grow many varieties that are not listed. If there are some you desire and are not listed, please inquire. They are likely available.

With every purchase we will give you FREE—"The Handbook of the Peony," published by American Peony Society. Ask for your copy. If you are interested in becoming a member of the American Peony Society, please inquire.
